Datacenter Service

Electrical power comes into the datacenter through the local power grid and is backed up by a battery supply capable of powering the datacenter. In case of an emergency, the generator will power the entire datacenter for several hours.

Costs	Included	Monthly cost
99,9% Network Uptime Guarantee*	Yes	FREE
100 Mbps Server Port	Yes	FREE
Server Hardware Guarantee	Yes	FREE
Cost of Power	Yes	FREE
USV Power Backup System	Yes	FREE
Backup Diesel Generator	Yes	FREE
Raised Floor Facility	Yes	FREE
Connected to over 2000 Peering & Internet Partners	Yes	FREE

* excluding scheduled maintenance.

Management Service IV (KVM over IP)

- 24/7 Server Reboot
- 24/7 I-Phone Reboot
- 24/7 Access to BIOS
- 24/7 Access to RAID
- 24/7 Access to KVM
- 24/7 Hardware Monitor

This technology allows you to manage your server even when remote access software, such as TS/ Remote Desktop or SSH is no longer functioning. As long as the dedicated server is powered, administrators will be able to have BIOS-level access to it. You can even reboot your server and watch the booting process from a web browser. It is as if the keyboard, monitor (video), and mouse are all physically connected to the server.

Monthly: 0 CHF
Setup: 199 CHF
